Atomic Learning provides **web-based software training** for more than 100 applications students and educators use every day. Their just-in-time approach focuses on answering the common questions people have when learning popular software packages.

Atomic Learning provides thousands of **short, easy-to-understand tutorial movies** and **resources** that can be used as an integral part of a professional development program, a valuable curriculum supplement, an anytime/anywhere software training resource, or as a Help Desk resource.

To start using Atomic Learning, connect to [http://lis.luther.edu](http://lis.luther.edu). Then either click on the **Training & Instruction** tab followed by the **Atomic Learning** link, or click on the **Library Research** tab and select **Resources by Type: - Instructional Materials**. Once you have reached the site, either use the search box to find the software tutorial you need, or click on the **Resources** tab.
Searching
- Enter text into the search box, such as “word 2007” and click the “Go!” button.
- Refine your search by Platform, Application, or Language.
- Click the “Search” button.
- Select either the “Title” to view a full course or the “Tutorial Title” to view a particular segment.

Additional Information within the Atomic Learning Website
- **About Us > About Atomic Learning** - Introduction to the product. Search for “Atomic Learning” for an introductory video.
- **About Us > What’s New?** – Find out what’s new and exciting with Atomic Learning, including product updates.
- **About Us > Tech Tips / Newsletter** – Sign up for publications. The Atomic Learning Newsletter is published every 45 days and features information on recent and pending releases of new tutorials and features on our site. AL’s Tech Tips is a short weekly publication that poses two sample questions. Answers are provided as links to Atomic Learning tutorials.
- **Support > Atomic ToolKit** - The Atomic Toolkit includes everything you need to help make Atomic Learning a successful part of your curriculum and staff development, including the Atomic Desktop.
- **Support > Using Key Numbers** – Learn how to e-mail a direct link to Atomic Learning tutorials or post links on your KATIE course. For example, if you wanted to include a link to tutorial "Adding and removing fields from a pivot table" that has key #29677, use the following syntax in KATIE:
