Fall Term 2012 - End of Semester GoPrint Stats

Deployed by LIS in 2009, GoPrint is Luther's print management solution. It allows us to more accurately track usage and allocate costs in providing print services to campus. GoPrint is also part of our effort to help cut down on waste and encourage better management of resources.

This report uses data gathered during the Fall Semester 2012 (Aug 28 - Dec 21). All information comes from the Student User Class - Quota class/purse. Reports were exported to .CSV format and then ported to .XLS for manipulation purposes (exporting straight to .XLS inserts unneeded formatting). All numbers are rounded to the nearest tenth. All Data is located at: \admin1.luther.edu\lis\GoPrintIssues\
