Fall Term 2014 End of Semester GoPrint Stats

Deployed by LIS in 2009, GoPrint is Luther’s print management solution. It allows us to more accurately track usage and allocate costs in providing print services to campus. GoPrint is also part of our effort to help cut down on waste and encourage better management of resources.

This report uses data gathered during the Fall Semester 2014. (Sept. 3rd-Dec. 19th) All information comes from the Student User Class Quota class/purse. Reports were exported to .CSV format and then ported to .XLS for manipulation purposes (exporting straight to .XLS inserts unneeded formatting). All numbers are rounded to the nearest tenth. All Data is located at: \admin1.luther.edu\lis\GoPrintissues\
**Quota Usage**

(Report: Printing Usage, Student User Class: Quota)

Students were allotted a total of 400 pages during Fall 2013 for printing purposes.

- # Students who used 100%+: 51
- # Students who used 100%: 96
- # Students who used 76% - 99%: 452
- # Students who used 51% - 75%: 477
- # Students who used 0% - 50%: 1065

Average % Used: 53.9% (215.7 pages)

*Students may use more than 100% of their quota by using NordiCash to pay for print jobs.*
With 2,141 students using GoPrint and each capable of printing 400 pages, there existed a potential for 856,400 pages to be printed during Fall. Students used more than half that amount with 461,596 pages being printed or 53.9%.

Total Quota Pages Used : 461,596 pages
Total Quota Pages Unused : 394,596 pages

Reimbursements

(Report : Printing Usage Report, Exclude Date Quotas Reset)

38 reimbursements to GoPrint quotas were made in Fall 2014. Reimbursements are made due to printer malfunction, toner error, etc. The Technology Help Desk maintains work orders of all reimbursement forms.
All networked printing devices on campus are listed in GoPrint and are separated into two categories Active and NonActive. Luther currently has 164 printing devices.

**Active** Printers are those who require a release from GoPrint (i.e. permitting an account to be charged). Print jobs sent through these devices are logged and charged. There are currently 78 printers in this category (an increase of two over previous years).

**NonActive**
Printers are those who are tracked by GoPrint, but do not require release. Print jobs sent through these devices are logged, but not charged. There are currently 86 printers in this category.

**Total Pages Printed**

**Active** : 790,992  
**NonActive** : 849,014  
**All Campus** : 1,640,006
